

NIMESH VIHANGA KOLAMBAGE

SOFTWARE ENGINEERING UNDERGRADUATE

Galle, Sri Lanka | _nimeshkolambage@gmail.com | www.nimeshkolambage.me | github.com/NimeshKolambage | linkedin.com/in/nimesh-kolambage

Motivated Software Engineering undergraduate at NIBM with hands-on experience in full-stack development across web, mobile, and IoT. Skilled in Java, Flutter, and JavaScript, with experience in Spring Boot. Passionate about building real-world and impactful software solutions.

EDUCATION

National Institute of Business Management(NIBM) - Galle | Higher National Diploma in Software Engineering | Nov 2025 - Present

- **Relevant Coursework:** Enterprise Application Development , Mobile Application Development,Data Structures & Algorithms(DSA)
- **Status :** Currently pursuing

National Institute of Business Management(NIBM) - Galle | Diploma in Software Engineering | june 2023 - Oct 2024

- **Grade :** GPA 3.2/4.0
- **Relevant Coursework:** Full Stack Web Development, Database Management Systems (DBMS),Object-Oriented Programming (OOP).

TECHNICAL SKILLS

- **Languages:** Java, JavaScript, SQL, PHP, Dart.
- **Frameworks & Libraries:** Spring Boot, Node.js,React, Flutter, Bootstrap.
- **Machine Learning:** Pandas, NumPy, Jupyter Notebooks.
- **Databases:** MySQL, MongoDB, Firebase (Realtime DB & Firestore),Supabase.
- **Tools & Cloud:** Google Cloud Console, Docker, Git, GitHub, Postman, VS Code.

PROJECTS

Serendib - Apartment Management System | Java, Kotlin, Supabase, EmailJS
community app for managing repair requests, complaints, and announcements with automated email notifications.

Quick Bid - Digitalized Auction System | Spring Boot, MySQL Workbench
web-based auction platform handling real-time bidding, item listings, and user management via a structured relational database

Wear Me - Virtual TryOn | Python, Computer Vision, Pandas, Scikit-Learn
machine learning system that predicts and recommends men's outfits using computer vision and pose estimation, trained on curated data to deliver accurate clothing suggestions in real time

LockMate - IoT Powered Mobile App | Flutter, ESPdev, Firebase Realtime
A smart IoT-based locking system that integrates an ESP8266 device with a mobile app, using Firebase Realtime Database to enable secure access control, real-time monitoring, and instant alerts.

CERTIFICATIONS

- [Front End Web Development](#)
- [Docker Foundations Professional](#)
- [Foundations of User Experience](#)
- [API Beginner](#)
